

Admin / Manager User Guide (Non-Technical)

This guide is for **Admins (Managers)** who run day-to-day work for employees inside the app. It is written in simple language so non-technical people can use it.

In the app, your role will typically show as **Admin** (your backend role is called ***MANAGER***).

1) What you can control vs what you can only view

1. You can do day-to-day people operations like:

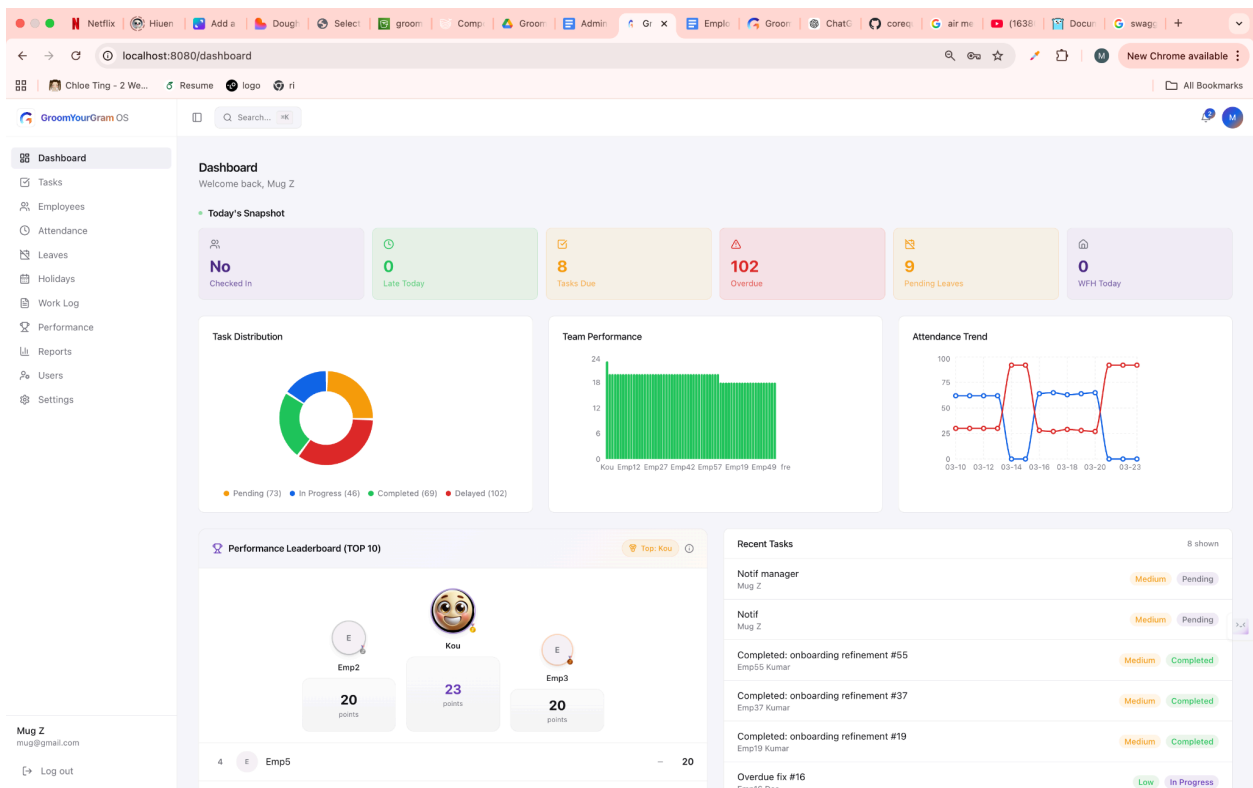

- Assign and manage tasks (within your scope)
- Approve/reject leave requests (only when permission is enabled)
- Review work logs sent to you
- Check-in/check-out attendance (for yourself)
- Manage holidays (only when permission is enabled)

2. You can view company-wide dashboards and analytics only if your account has the right permission toggles.

3. You cannot manage "global company settings" like brand, leave limits, or performance weight formula tuning. Those are Founder/Super Admin only.

2) Your main dashboard (overview)

Go to: ****Dashboard****

What you see

- Task counts: Pending / In Progress / Completed / Delayed
- Team performance: EPI leaderboard (company-wide)
- Attendance trend
- Leaderboard
- Recent tasks and recent activity
- Work logs summary

What you can do here

- This page is mainly for ****monitoring****. For actions, use the specific pages below.

3) Tasks (assign and track work)

The screenshot displays the 'Tasks' section of the GroomYourGram OS. The interface includes a sidebar with navigation options like Dashboard, Tasks, Employees, Attendance, Leaves, Holidays, Work Log, Performance, Reports, Users, and Settings. The main area shows a list of 32 tasks. The tasks are filtered by 'All Status', 'All Priority', 'Last 30 days', and 'All Tasks'. The tasks are listed in a table with columns: Title, Assigned To, Assigned By, Priority, Deadline, Status, and Actions. The tasks are sorted by priority and deadline. The user is Mug Z, and the page shows 1-15 of 32 tasks.

Title	Assigned To	Assigned By	Priority	Deadline	Status	Actions
Notif manager	Mug Z	Palak	Medium	24-03-2026 12:00 AM IST	Pending	Start Task
Notif	Mug Z	Palak	Medium	25-03-2026 12:00 AM IST	Pending	Start Task

svdds	Mug Z	Palak	Medium	23-03-2026 04:54 PM IST	Completed	Open to view

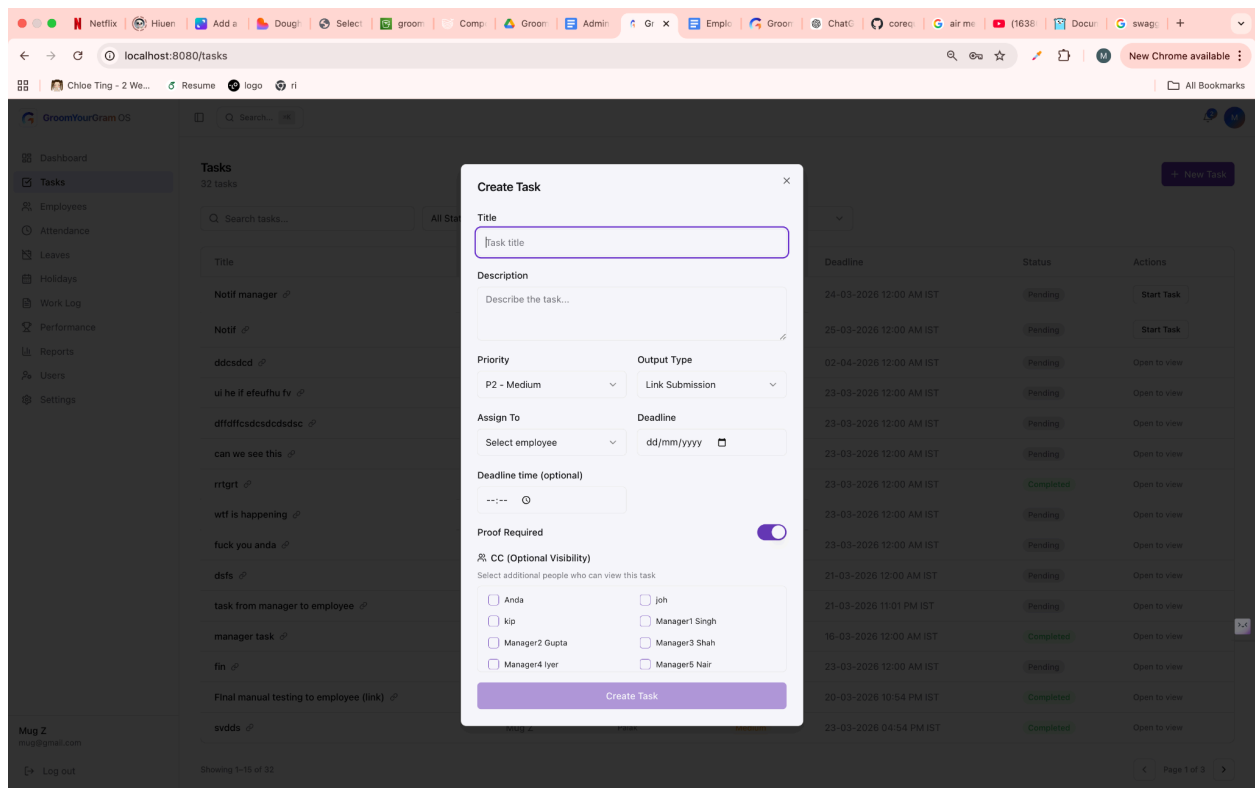

Go to: **Tasks**

What you can view

- Tasks that you created
- Tasks assigned to you
- Tasks assigned to your direct reportees
- Tasks you are included in via CC

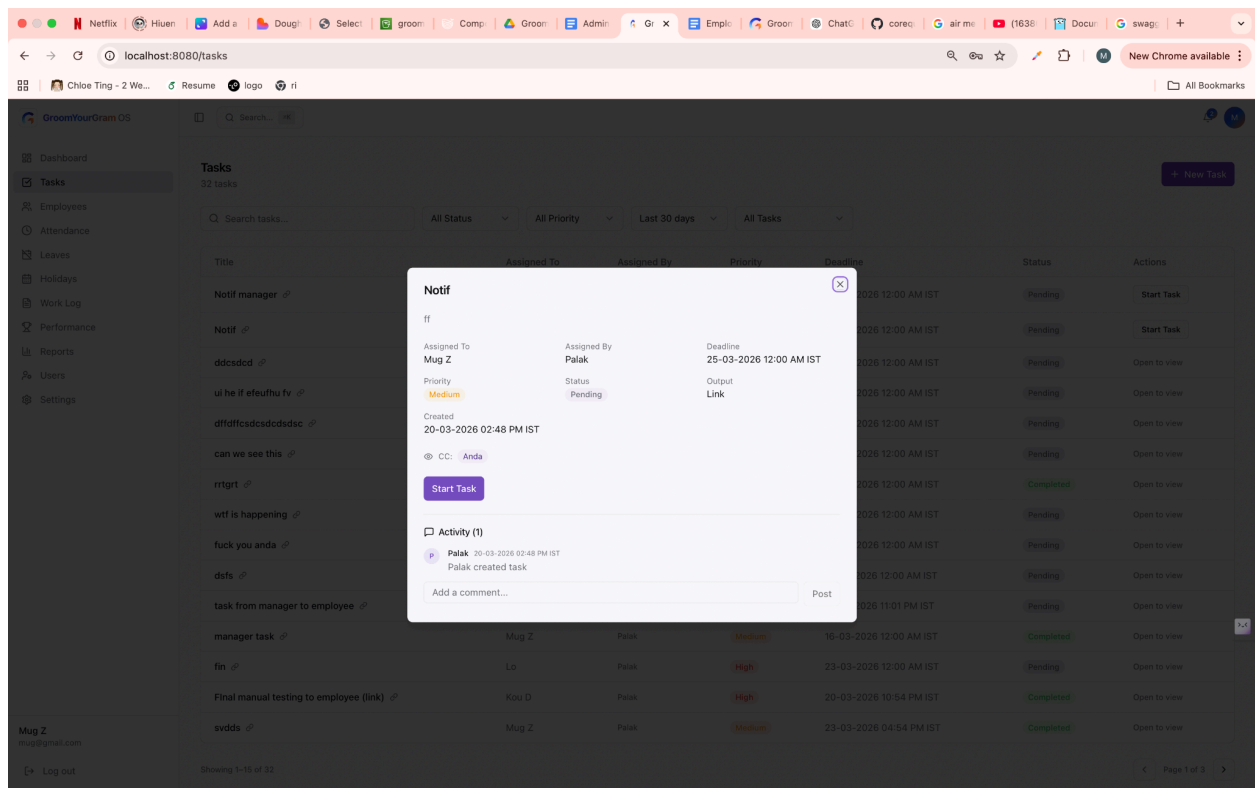

What you can do

1. Create a new task

- Click **New Task**
- Fill:
- Title and Description
- Priority (P1 High / P2 Medium / P3 Low)
- Assign To (only employee-type users)
- Deadline date (and optional deadline time)
- Proof required (if enabled, assignee must submit a link before completion)
- Optional CC (people who can view the task)

2. Start or complete tasks

- You only get Start/Complete buttons for tasks where you are the assigned person.

3. Submit proof (if proof is required)

- Only the assignee can submit proof links.

4. Add comments and view task activity

- If you can view the task, you can also comment and see the activity timeline.

Common issue

- If ****New Task**** fails to save, ask the Founder to enable permission: ****Assign Tasks****.

4) Leaves (approve or reject requests)

Leaves
All leave requests

Leaves Requested By Me: **4**

Leave Requests From Employees: **0**

Paid Leave: **13/15**

Casual Leave: **17/19**

Sick Leave: **15/15**

5 Approved, 0 Pending, 3 Rejected

Filter by employee: All Employees | Month: March 2026 | Requested By: All

Employee	Type	Dates	Sent To	Status	Actions
Kou D	Casual Leave	2026-03-24 → 2026-03-27	Mug Z	Approved	👁
Mug Z	Paid Leave	2026-03-24 → 2026-03-27	Abhinav D	Approved	👁
Mug Z	Casual Leave	2026-03-21 → 2026-03-23	Palak	Approved	👁
Mug Z	Paid Leave	2026-03-21 → 2026-03-24	Palak	Rejected	👁
Mug Z	Casual Leave	2026-03-20 → 2026-03-20	Palak	Approved	👁
Kou D	Sick Leave	2026-03-27 → 2026-03-28	Mug Z	Approved	👁
Kou D	Casual Leave	2026-03-21 → 2026-03-24	Mug Z	Rejected	👁
Kou D	Sick Leave	2026-03-20 → 2026-03-20	Mug Z	Rejected	👁

mug@gmail.com
Log out

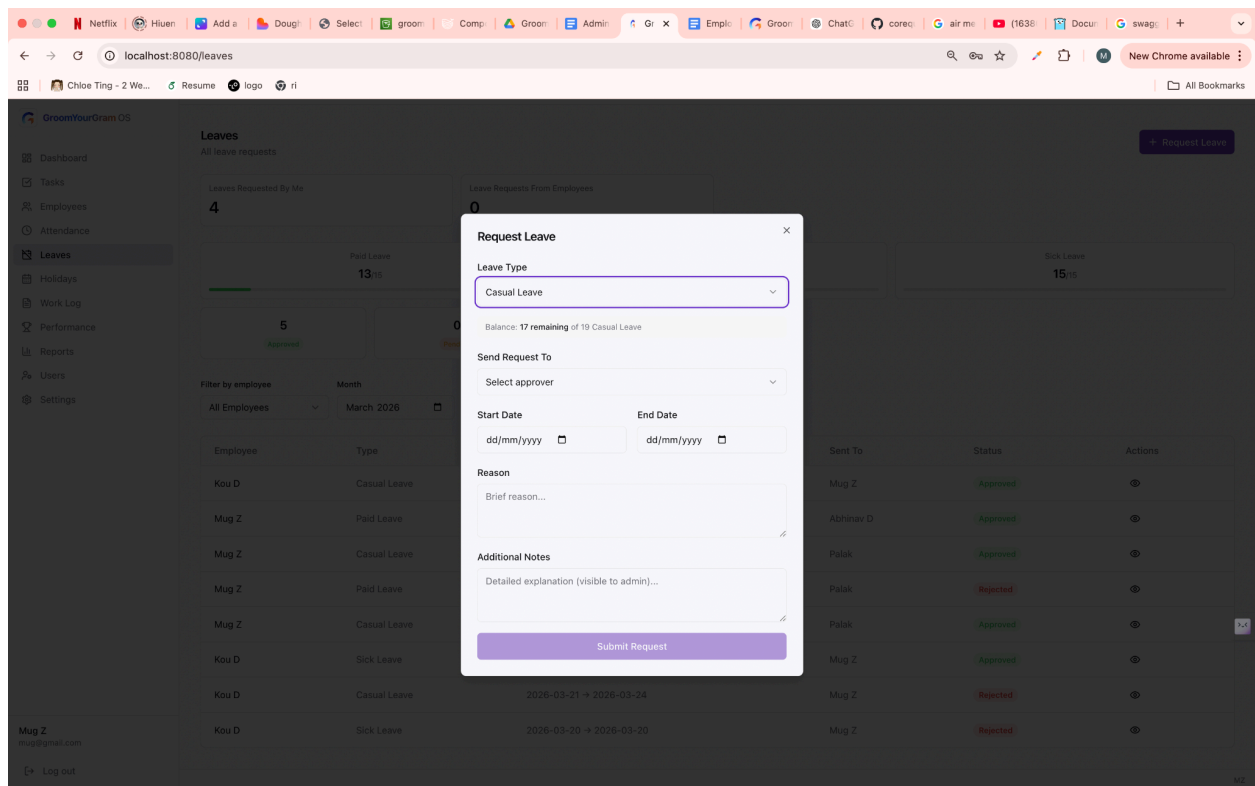

Go to: **Leaves**

What you can view

- Your own leave requests
- Leave requests that are sent to you as the approver
- Leave requests from your direct reportees

What you can do

1. Request leave (for yourself)

- Click ****Request Leave****
- Choose leave type, start date, end date, reason, and optional notes
- Choose the approver (typically routed to Founder for managers)

2. Approve or reject pending leave requests

- For ****pending**** requests, you will see ****Approve**** and ****Reject**** buttons when your permission is enabled.

- You can approve/reject requests that are routed to you (and within your scope).

If you do not see Approve/Reject

- Ask the Founder to enable: ****Approve Leaves****.

5) Work Logs (review work submitted by others)

Go to: ****Work Log**** (or ****Worklogs****)

Work Log
Log your work and review logs sent to you

Status: All
Start date: dd/mm/yyyy
End date: dd/mm/yyyy

Work Logs (11 logs)

Log Entry	Status	Action
Kou D -> Mug Z 20 Mar WOiked on xyz	Pending	View, Mark reviewed
Mug Z -> Abhinav D 20 Mar CCompleted xyz https://google.com	Pending	View
Kou D -> Mug Z 20 Mar frfrfrfrf	Reviewed	View
Kou D -> Mug Z 20 Mar dfvdsfdesfdesf	Reviewed	View
Mug Z -> Abhinav D 20 Mar dfvdsf	Reviewed	View
Mug Z -> Abhinav D 19 Mar fsdfdsfs	Pending	View
Kou D -> Mug Z 19 Mar fixing	Reviewed	View
Mug Z -> Abhinav D 19 Mar ereftretrytr https://www.lipsum.com/	Reviewed	View
Kou D -> Mug Z 19 Mar frdfef	Pending	View, Mark reviewed

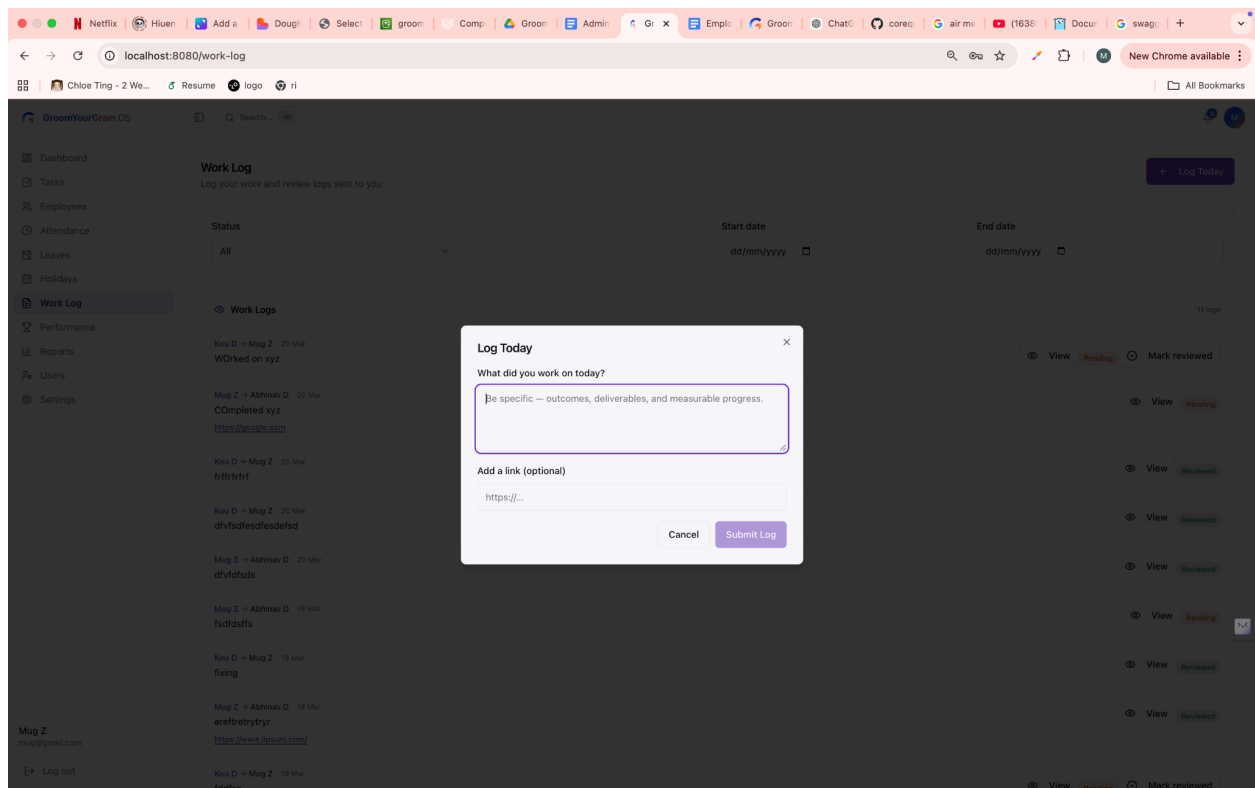

Mug Z
mug@gmail.com
Log out

What you can view

- Work logs you have submitted
- Work logs that others submitted ****to you**** (for review)

What you can do

1. Log your own work

- Click **Log Today**
- Add a description (what you worked on) and optional link
- Submit

2. Review work logs sent to you

The screenshot shows a web application interface for 'Groom4ourGram OS'. The left sidebar contains a navigation menu with items: Dashboard, Tasks, Employees, Attendance, Leaves, Holidays, Work Log (selected), Performance, Reports, Users, and Settings. The main content area is titled 'Work Log' and includes a sub-header 'Log your work and review logs sent to you'. There are filters for Status (All), Start date, and End date. A table lists work logs with columns for From, To, Status, Description, and Link. A modal window titled 'Work Log Details' is open, showing details for a log from Kou D to Mug Z, including the description 'Completed xyz' and a link to 'https://www.google.com'. The modal also has a 'Mark reviewed' button.

From	To	Status	Description	Link
Kou D	Mug Z	Pending	Worked on xyz	
Mug Z	Abhinav D	Completed	Completed xyz	https://www.google.com
Kou D	Mug Z	Pending	frfrfrfrfr	
Kou D	Mug Z	Pending	dfvdsfdesfdesf	
Mug Z	Abhinav D	Pending	dfvdsfdesf	
Mug Z	Abhinav D	Pending	fsdfdsf	
Kou D	Mug Z	Pending	fixing	
Mug Z	Abhinav D	Pending	erefrertryr	https://www.google.com
Kou D	Mug Z	Pending	fdfdsf	

- In the log list, find logs with status **Pending**

- Click **Mark reviewed**

6) Attendance (check-in/out and monitor)

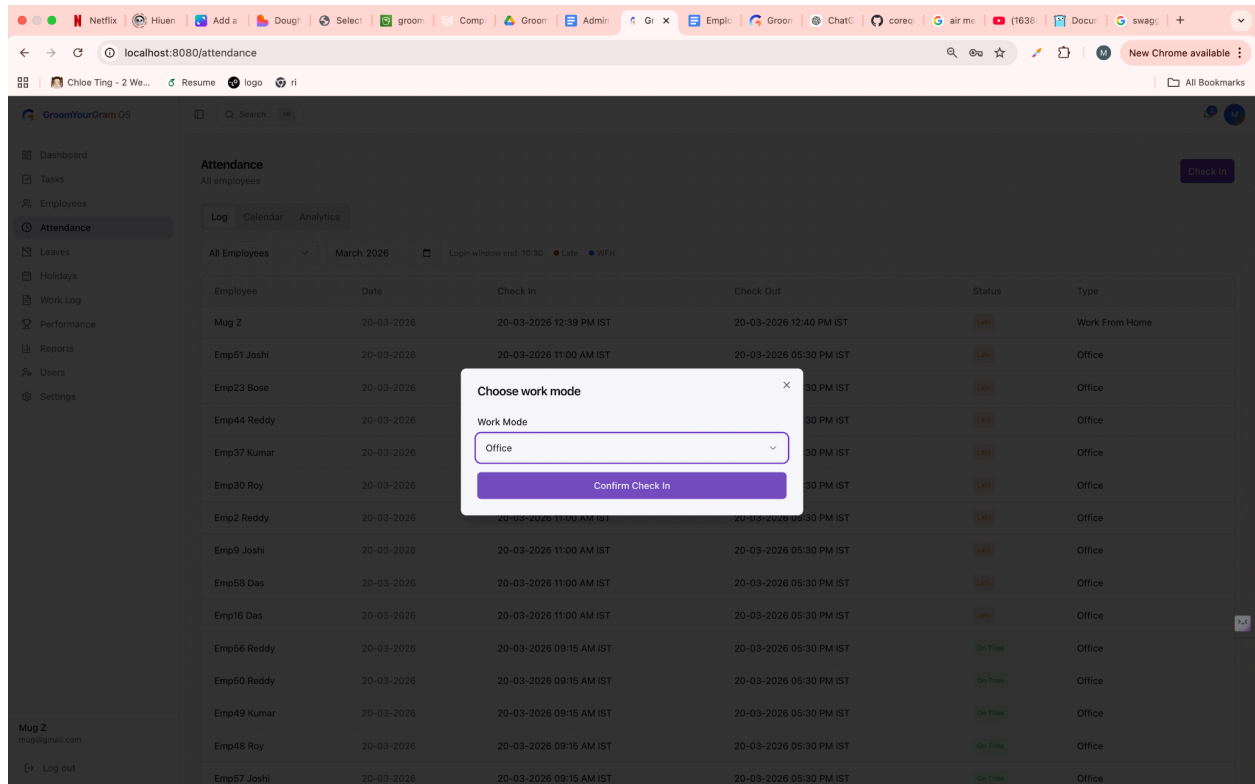

The screenshot displays the 'Attendance' page of the GroomYourGram OS. The page title is 'Attendance' with a subtitle 'All employees'. A 'Check In' button is visible in the top right corner. The page has three tabs: 'Log', 'Calendar', and 'Analytics'. The 'Log' tab is active, showing a table of employee attendance records for March 2026. The table has columns for Employee, Date, Check In, Check Out, Status, and Type. The status column uses color-coded labels: 'Late' (orange) and 'On Time' (green). The table lists 15 employees, with the first 10 marked as 'Late' and the last 5 marked as 'On Time'. The sidebar on the left contains navigation links for various system features. The top navigation bar shows the user is logged in as 'Mug Z'.

Employee	Date	Check In	Check Out	Status	Type
Mug Z	20-03-2026	20-03-2026 12:39 PM IST	20-03-2026 12:40 PM IST	Late	Work From Home

Emp57 Joshi	20-03-2026	20-03-2026 09:15 AM IST	20-03-2026 05:30 PM IST	On Time	Office

Go to: **Attendance**

For yourself

- You can **Check In** and **Check Out** (unless you are a Founder/Super Admin, which you are not).

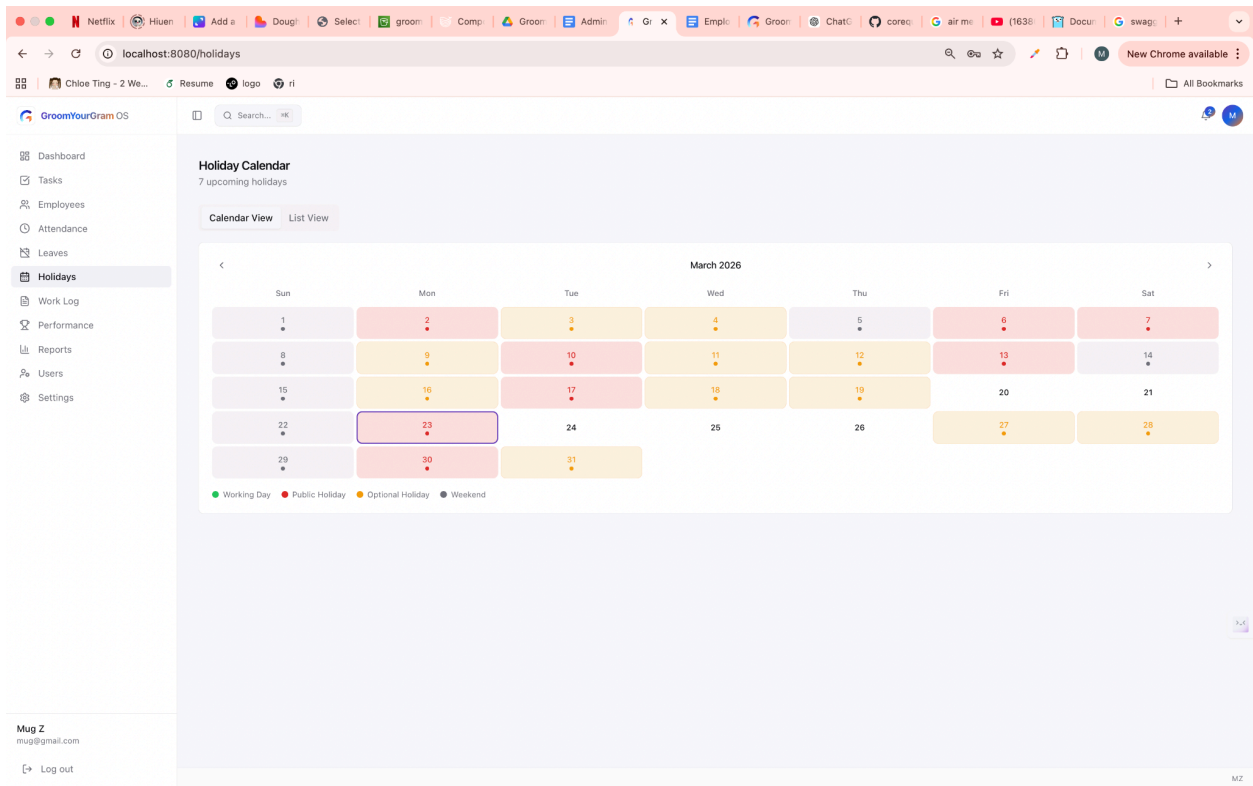

For team monitoring (permission-based)

- If your Founder enabled **Manage Attendance**, you will be able to:
- View attendance for all employees
- Open the Calendar and Analytics tabs
- If you do not have that permission, the app will show your **own** attendance only.

What you can view (when permission is enabled)

- List view (filter by employee and month)
- Calendar view (OP/OL/A/WFH/H codes)
- Analytics (punctuality leaderboard and late arrivals)

7) Holidays (holiday calendar)

Go to: ****Holidays****

Always visible (view-only)

- Holiday calendar (month view)

- List view (upcoming and past holidays)

You can also manage (if permission is enabled)

Ask your Founder to enable ****Manage Holidays**** if you need to:

1. Add a single holiday

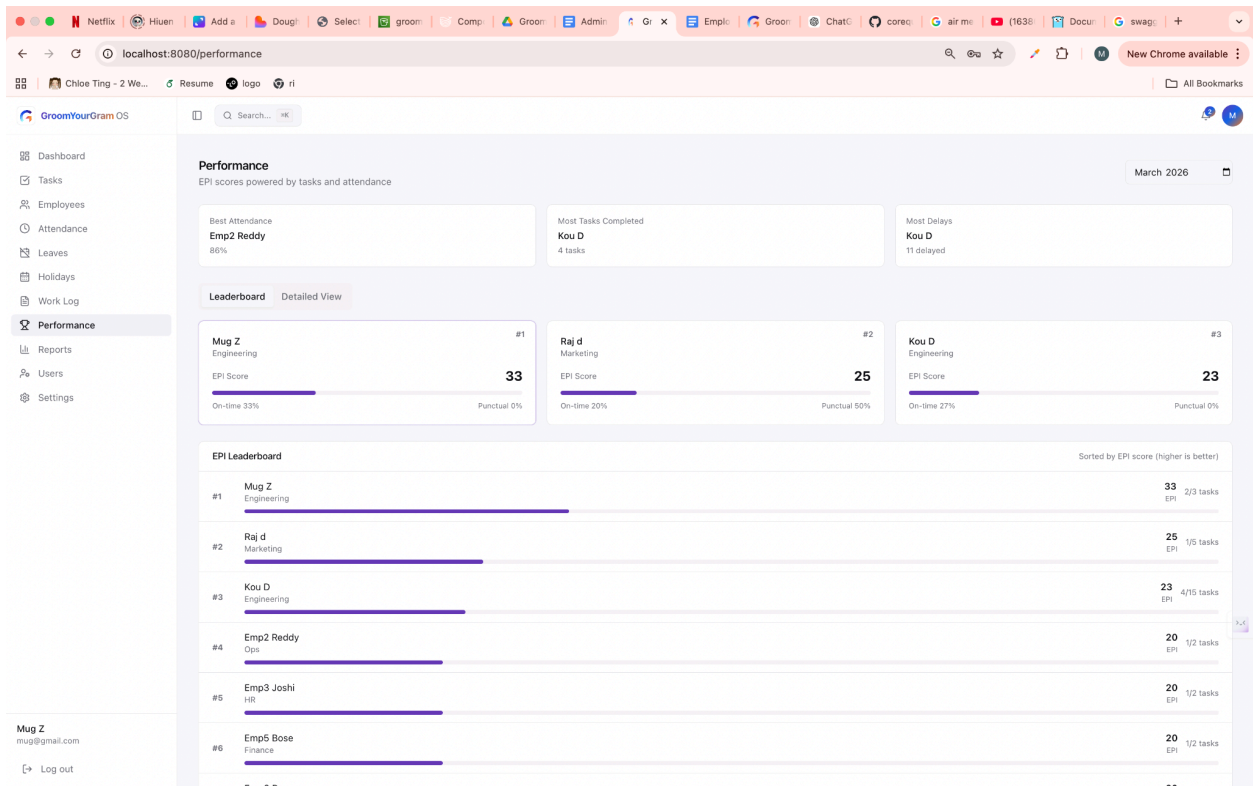

2. Add multiple holidays (bulk add)

3. Mark all Sundays

4. Delete holidays

8) Performance (EPI leaderboard)

Go to: ****Performance****

What you can see

- EPI leaderboard for a selected month/date range
- Detailed view (how EPI is calculated)
- Comparisons between employees (select multiple users)

Permission-based access

- If you cannot see performance analytics, the app will show an "access" message.
- Ask your Founder to enable: ****View Performance / View Analytics****.

9) Reports (download monthly reports)

Go to: ****Reports****

What you can do

1. Pick a month
2. View key metrics (employees, managers, average attendance, department headcount)

3. Download reports (PDF/CSV depending on system availability):

- Tasks Report
- Attendance Report
- Leave Report
- Employee Report
- Performance Report

Permission-based access

- If you do not see reports, ask your Founder to enable: ****View Reports****.

10) Settings (what you can and cannot change)

Go to: ****Settings****

You cannot change these (Founder-only)

- Brand (company name, logo, colors, theme mode)
- Attendance configuration (login window start/end)
- Leave limits (annual caps per leave type)
- Performance weights (EPI formula tuning)
- Departments (add/remove)

If you try to change something, it may fail due to permission restrictions. Use this page mainly to understand what is configured.

11) Employees (view profiles and assign work)

Go to: ****Employees****

What you can do

1. View employee cards and open a profile
2. Assign tasks from the employee card (if available in your UI)

Salary and editing (permission-based)

- You can view salary only if your Founder enabled ****View Salaries****.
- You can edit employee details (including salary updates) only if your Founder enabled ****Edit Employees****.

12) Notifications (bell)

You can:

- View notifications in the bell dropdown
- Mark notifications as read
- Mark all notifications as read

13) Timeline Requests (sidebar item for everyone)

Add a section covering:

Deadline requests – request a new task deadline; approver (manager/founder) approves/rejects

Suggestions – propose improvements; approver approves; assignee marks complete; comments thread

14) CRM / Sales (for users with CRM access)

Add a new guide section (or a separate “Sales & CRM” guide):

Page	Route	Who sees it
Sales Pipeline	/sales-pipeline	Founder + anyone with CRM access
Leads	/deals	Same
Campaigns	/campaigns	Everyone (data scoped by assignment)

Cover: create/move leads, lock deals, assign ops team, campaign tasks/work logs, field visibility (“Hidden” fields), mark campaign complete (Founder only).

15) Work Log – rewrite this section (important)

Current docs describe old free-text “description + send to manager” logs. The app now works like this:

Primary view: Campaign-linked structured work logs (pick campaigns, enter metrics)

Log Today opens the structured dialog (same flow as checkout work log)

Archive: Legacy text logs (with “send to manager” + Mark reviewed) – collapsible via View Archive

Filters: employee, campaign, date range; Export CSV

Update Employee, Admin, and Founder Work Log sections to match this.

16) Attendance – expand beyond check-in/out

Add:

Lunch/break workflow: break on → break off → post-lunch check-in (auto-lunch when enabled)

Geofencing: office check-in may require location when configured

Work log on checkout: if enabled in Settings, checkout requires logging work first

Calendar codes: OP, OL, A, WFH, H (already partly documented)

17) Tasks – corrections

Add/update:

Employees can create tasks (no Assign Tasks permission needed); they must pick a Request type (e.g. key action, arrange work, follow up, review required, approval needed)

Employees see tasks assigned to them, created by them, or where they're CC'd – not only assigned tasks

Optional fields: output type, campaign link, CC (managers only for CC)

Managers/founders assign to employees and other managers

18) Quick FAQ (Admin)

****Q: Why do I not see Approve/Reject on a leave request?****

Ask your Founder to enable ****Approve Leaves**** for your account.

****Q: I can view reports page but downloads fail. Why?****

Ask your Founder to enable ****View Reports**** permission.

****Q: Can I edit brand/logo/colors in Settings?****

No. Brand updates are ****Founder/Super Admin only****.
