

Employee User Guide

This guide is for Employees who use the app for daily work: logging work, requesting leaves, tracking tasks, and maintaining attendance.

In the app, your role shows as **Employee** (your backend role is called *EMPLOYEE*).

1) What you can do (quick summary)

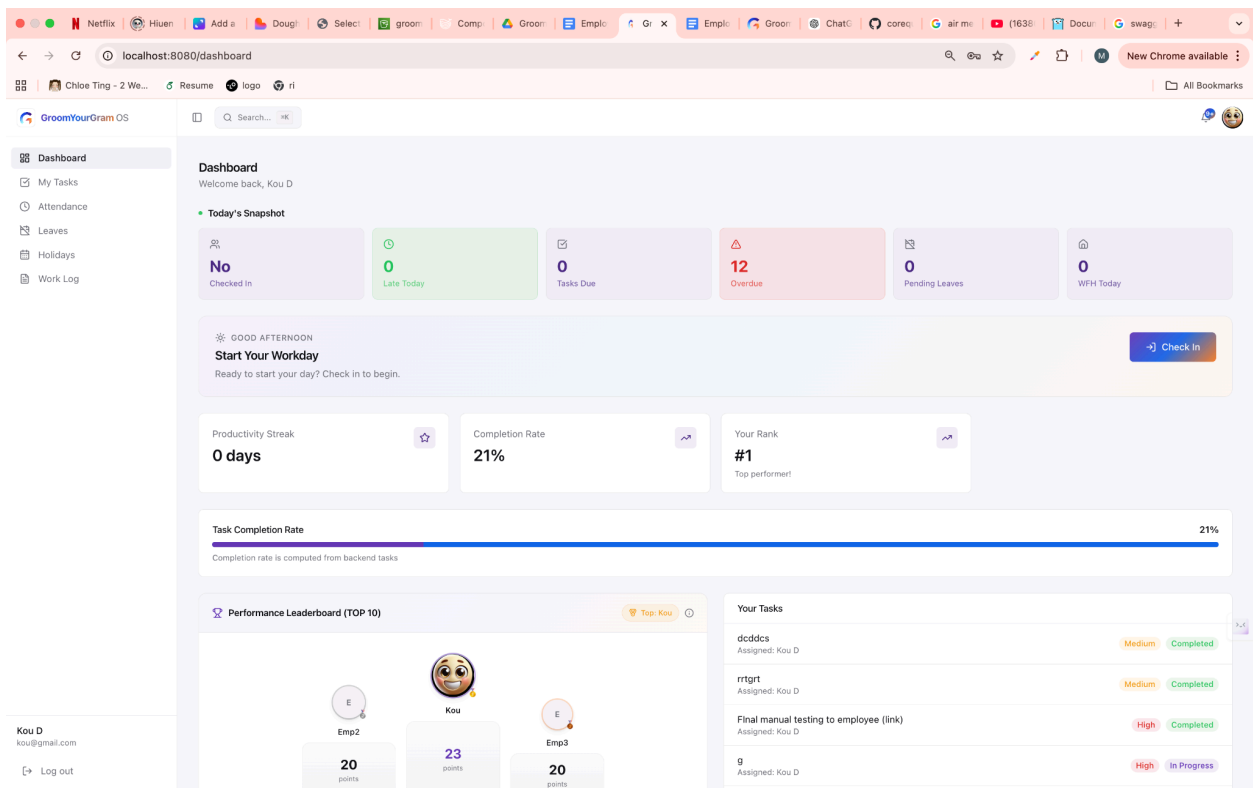

1. Track your tasks and mark them in progress/completed (when assigned to you)
2. Log your work every day (Work Log)
3. Request leave (Leaves) and view your leave status/balance
4. Check in and check out attendance (Attendance)
5. View the holiday calendar (Holidays)
6. View notifications and mark them as read

You generally cannot:

- Approve leaves
- Edit company settings like brand, leave limits, and performance weights
- Access reports, performance analytics, payroll, or user management pages

2) Your main dashboard (overview)

Go to: Dashboard

What you see

- Today snapshot (your counts)
- Your task completion progress (completion rate)
- Leaderboard rank for motivation
- Your recent tasks and recent activity
- Your work log summary
- Productivity streak (based on attendance and task completion)

What you can do here

- Mostly monitoring. For actions, use Tasks, Leaves, Work Log, and Attendance.

3) Tasks (your work assignments)

Go to: Tasks

My Tasks
19 tasks

Search tasks... All Status All Priority Last 30 days

Log out

What you can see

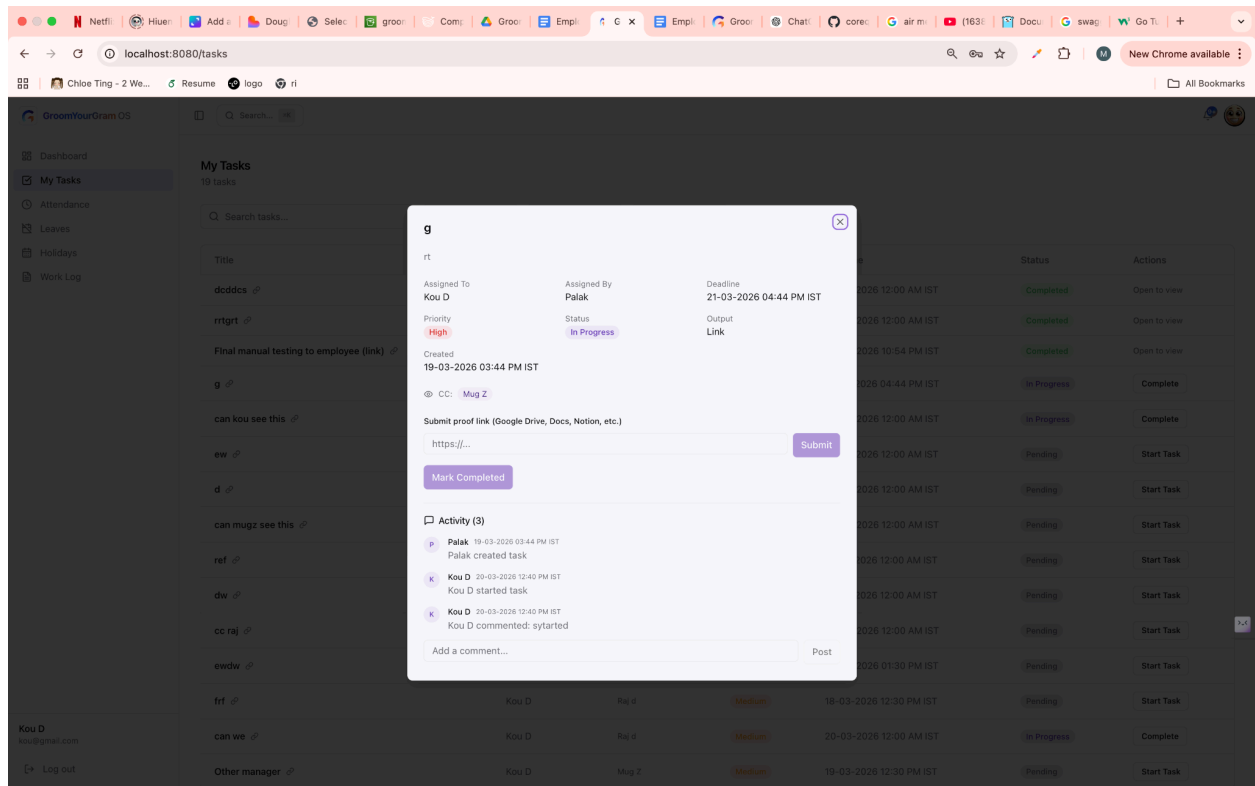

- Only the tasks assigned to you
- Search, filters, and the task list

What you can do

1. Start a task

- When a task is in Pending, open it and click Start Task

2. Submit proof (if proof is required)

- If a task requires proof, you will see a field to submit a link
- Submit proof link (for example: Google Drive link, Docs link, etc.)

3. Mark a task complete

- If proof is required, completion is blocked until you submit proof
- Then click Mark Completed

4. Add comments and read task activity

- In the task detail view, you can add comments
- You can also see the activity timeline (who did what and when)

4) Leaves (request and track leave)

The screenshot displays a web application for managing leaves. The browser address bar shows `localhost:8080/leaves`. The sidebar on the left contains the following links: Dashboard, My Tasks, Attendance, **Leaves** (active), Holidays, and Work Log. The main content area is titled 'Leaves' and includes a '+ Request Leave' button. It features three summary cards for leave balances: Paid Leave (12/15), Sick Leave (14/15), and Casual Leave (15/15). Below these are three smaller cards showing counts for Approved (5), Pending (0), and Rejected (5) requests. A table lists individual leave requests with columns for Employee, Type, Dates, Status, and Actions. The user profile at the bottom left identifies the user as 'Kou D' with email 'kou@gmail.com' and a 'Log out' button.

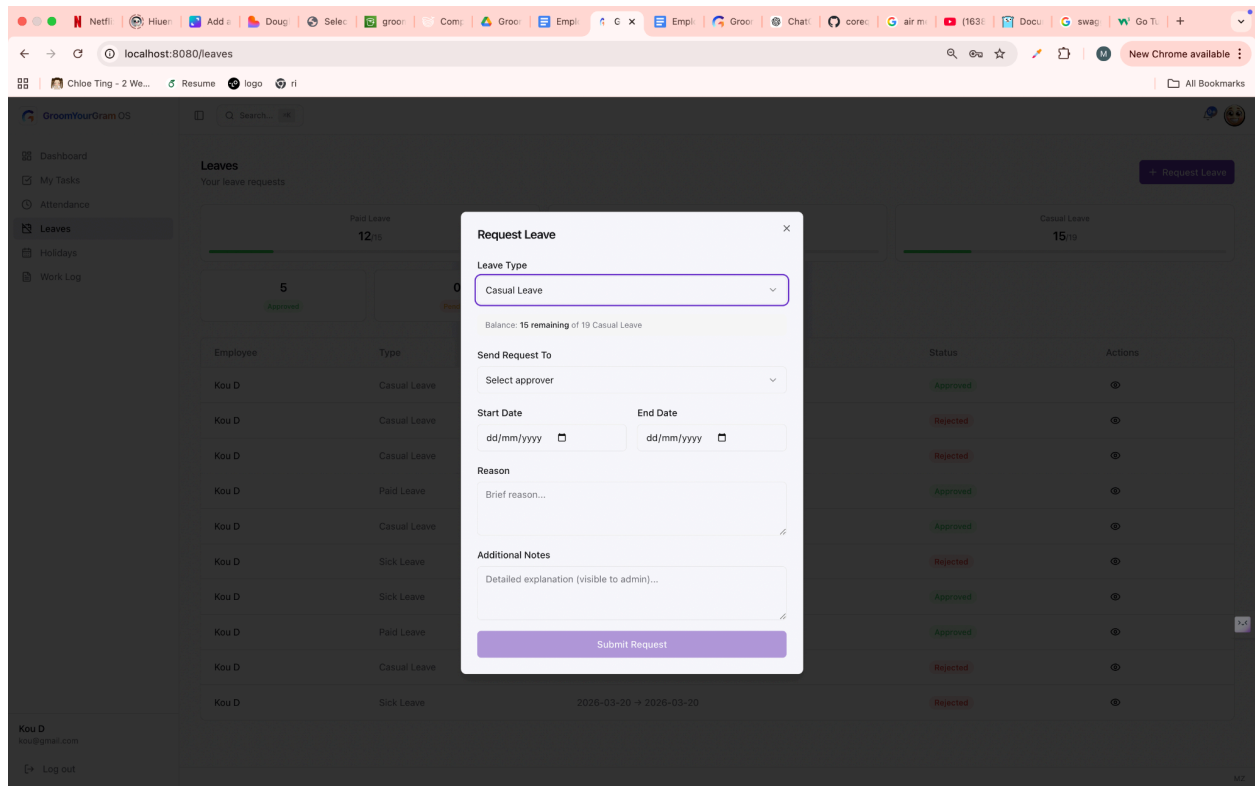

Employee	Type	Dates	Status	Actions
Kou D	Casual Leave	2026-03-24 → 2026-03-27	Approved	
Kou D	Casual Leave	2026-03-28 → 2026-04-01	Rejected	
Kou D	Casual Leave	2026-03-25 → 2026-03-30	Rejected	
Kou D	Paid Leave	2026-03-28 → 2026-03-31	Approved	
Kou D	Casual Leave	2026-03-21 → 2026-03-24	Approved	
Kou D	Sick Leave	2026-03-26 → 2026-03-27	Rejected	
Kou D	Sick Leave	2026-03-27 → 2026-03-28	Approved	
Kou D	Paid Leave	2026-03-28 → 2026-03-31	Approved	
Kou D	Casual Leave	2026-03-21 → 2026-03-24	Rejected	
Kou D	Sick Leave	2026-03-20 → 2026-03-20	Rejected	

Go to: Leaves

What you can see

- Your leave requests (filter by Pending/Approved/Rejected if available)
- Leave balances by leave type
- Counts of approved/pending/rejected for your view

What you can do: request leave

1. Click Request Leave

2. Choose:

- Leave type (Casual / Sick / Paid)
- Start date and end date
- Reason
- Additional notes (optional)
- Approver (manager/founder) from the dropdown

3. Click Submit Request

5) Work Logs (log what you worked on)

Go to: Work Log (or Worklogs)

Log out

What you can do

1. Log work today

- Click Log Today
- Add:
 - Description: what you worked on (outcomes/deliverables)
 - Optional link
 - Choose a manager to send it to (this appears for employees)
- Click Submit Log

2. Track status

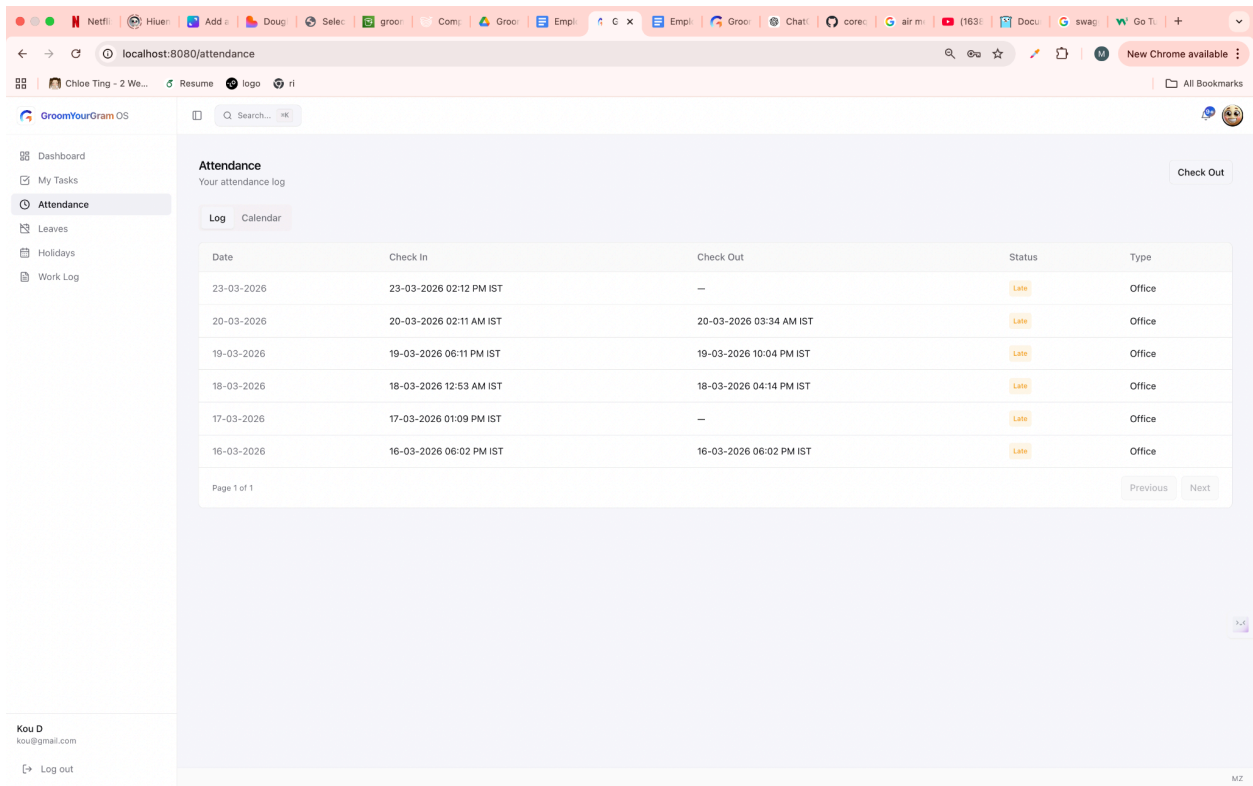

- Your logs show as Pending until your manager reviews them
- Then they become Reviewed

Mark reviewed button

- Employees typically do not mark "reviewed". That action is for the receiver/manager.

6) Attendance (check in and out)

Go to: Attendance

Attendance

Check Out

Kou D
kou@gmail.com

Log out

What you can do (for yourself)

1. Check In

- Click Check In
- Choose work mode:
- Office, or
- Work From Home
- Confirm

2. Check Out

- If you already checked in for today, click Check Out

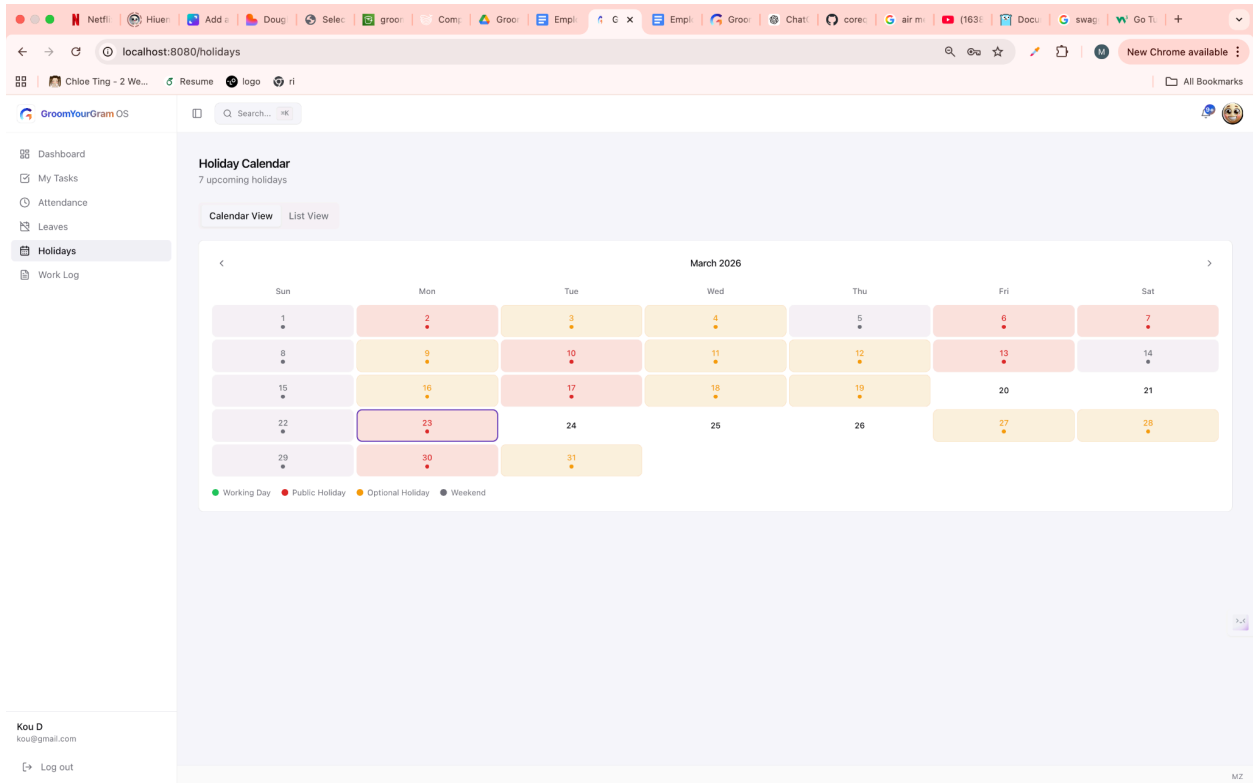

What you can see

- Your attendance list for a selected date range/month
- Status:
- On time
- Late

- (WFH and other codes may appear in the calendar view)

7) Holidays (view calendar)

Go to: Holidays

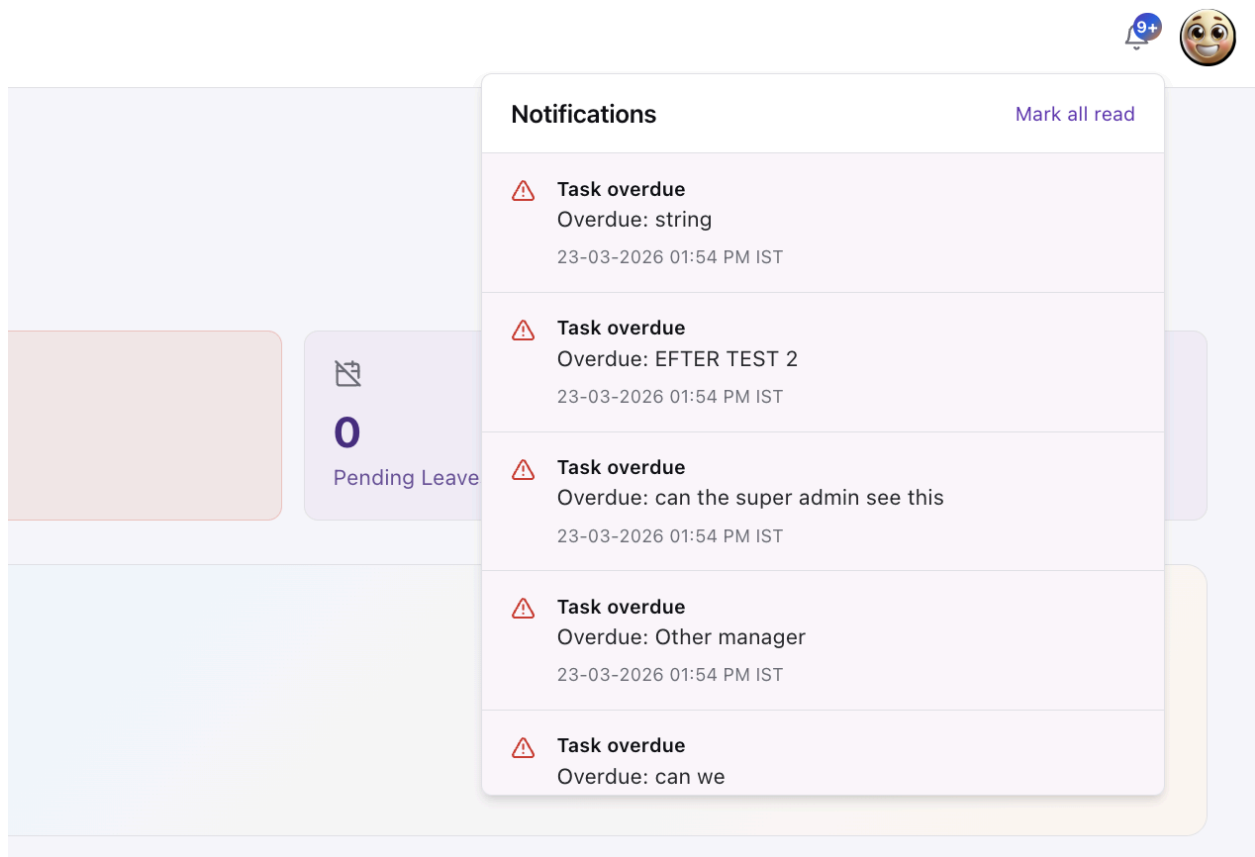

What you can do

- View upcoming and past holidays
- View the holiday calendar month view

What you cannot do

- Add or delete holidays (only Admin/Founder with permission)

8) Notifications (bell)

You can:

- View your notifications in the bell dropdown
- Mark one notification as read
- Mark all notifications as read

Notifications may include:

- Task assigned/completed
- Leave requested/approved/rejected
- Work log reviewed
- Deadline reminders

9) Timeline Requests (sidebar item for everyone)

Add a section covering:

Deadline requests – request a new task deadline; approver (manager/founder) approves/rejects

Suggestions – propose improvements; approver approves; assignee marks complete; comments thread

10) CRM / Sales (for users with CRM access)

Add a new guide section (or a separate “Sales & CRM” guide):

Page Route Who sees it

Sales Pipeline /sales-pipeline Founder + anyone with CRM access

Leads /deals Same

Campaigns /campaigns Everyone (data scoped by assignment)

Cover: create/move leads, lock deals, assign ops team, campaign tasks/work logs, field visibility (“Hidden” fields), mark campaign complete (Founder only).

11) Work Log – rewrite this section (important)

Current docs describe old free-text “description + send to manager” logs. The app now works like this:

Primary view: Campaign-linked structured work logs (pick campaigns, enter metrics)

Log Today opens the structured dialog (same flow as checkout work log)

Archive: Legacy text logs (with “send to manager” + Mark reviewed) – collapsible via View Archive

Filters: employee, campaign, date range; Export CSV

Update Employee, Admin, and Founder Work Log sections to match this.

12) Attendance – expand beyond check-in/out

Add:

Lunch/break workflow: break on → break off → post-lunch check-in (auto-lunch when enabled)

Geofencing: office check-in may require location when configured

Work log on checkout: if enabled in Settings, checkout requires logging work first

Calendar codes: OP, OL, A, WFH, H (already partly documented)

13) Tasks – corrections

Add/update:

Employees can create tasks (no Assign Tasks permission needed); they must pick a Request type (e.g. key action, arrange work, follow up, review required, approval needed)

Employees see tasks assigned to them, created by them, or where they're CC'd – not only assigned tasks

Optional fields: output type, campaign link, CC (managers only for CC)

Managers/founders assign to employees and other managers

14) Quick FAQ (Employee)

Q: I submitted work log but it still shows Pending.

That means your manager has not reviewed it yet.

Q: Why can I not approve leaves?

Approvals are handled by managers (with permissions) and/or Founders.

Q: Proof is required but I don't have it yet.

Do not mark the task completed until you submit the proof link.
